## Standard Conditions of Approval

1. The applicant must identify the exact date(s) for which the work will take place. If an exact date(s) isn't provided with the permit application, the permit holder is required to contact City of Bloomington Engineering staff with the request at least 72 hrs BEFORE a closure begins. The City of Bloomington Engineering staff reserves the right to decline the request, or modify the previously approved terms of the permit, if the request cannot be accommodated. Permittees are required to notify Engineering staff if the permitted dates can no longer be adhered to.
2. ALL EXCAVATIONS must be inspected by City of Bloomington Engineering staff. Contact the inspector by phone number listed on each permit. The general contact number is (812) 349-3913.
3. Contact the Utility Coordinator at the City of Bloomington Utilities Department if placing a new or working on an existing sanitary sewer lateral or water line/meter placement at (812)349-3930.
4. This permit does not authorize the closure of any metered or permit parking zones unless expressly stated. Contact Parking Services if the work will require the closure of metered or permit parking zones at 812-349-3436.
5. Any brick or inlaid limestone sidewalks or brick-surfaced streets shall remain undisturbed, unless specific permission is requested by the permit holder and granted by the City. Work on these facilities are subject to historic preservation approvals. If these facilities are disturbed: The surface material shall be taken up, saved, and re-installed to City of Bloomington specifications. Backfill methods and materials must also meet these specifications.
6. This approval only covers concerns within the jurisdictions of the City of Bloomington Engineering Department. It is the responsibility of the applicant to identify, and apply for any additional permits that other entities or agencies may also need to grant approval for.
7. Projects shall conform to all current A.D.A.(Americans with Disabilities Act) and PROWAG (Public Rights-of-Way Accessibility Guidelines) standards.
8. All utility work shall conform to specifications to be obtained from the owner of the affected utility, and work on said utility shall be performed only with expressed permission of its owner. It shall be the responsibility of the permittee to obtain any necessary inspections or approvals from the owner of the utilities involved.
9. All required traffic control measures shall be in place before work begins. The permittee shall be responsible for supplying and placing all required signs and barricades. The City of Bloomington Engineering staff reserves the right to require modifications to a previously approved traffic control plan if deficiencies or enhancements are identified in the implementation. City of Bloomington staff may require the permittee to secure the excavations and vacate the right-of-way until such time that the modifications can be made.
10. Any work in the right-of-way shall conform to the City of Bloomington Standards and Specifications. Copies of these requirements and other resources are available from the Engineering Department or at 'Public Right of Way Permits and Resources' found at the following webpage: <https://bloomington.in.gov/engineering/resources>. All damaged Public Improvements must be repaired to prior conditions or improved conditions.
11. Any damage to any underground facility or utility must be reported immediately to the City of Bloomington Engineering Department and the owner of the facility or utility (if known). If not, the permittee may be required to re-excavate the damaged facility or utility, at their expense, to demonstrate that repairs have been made to the satisfaction of the owner of the damaged facility or utility. Permittee shall be responsible for all costs associated to the repair of any damage of City-owned utilities, signs, or other appurtenances that results from the use or excavation of the Right-of-Way.
12. All existing signs, or appurtenances (STOP, YIELD, NO PARKING, bollards, parking meters, etc.) that are owned by the City of Bloomington shall be removed and replaced only by the City of Bloomington personnel unless previously approved by the City Engineer or their designee. Any unapproved signs removed, or installed, by the permittee are subject to removal or replacement with permittee being billed for time and materials.
13. All existing pavement markings (crosswalks, edge lines, etc) that are disturbed within the Right-of-Way shall be replaced at the direction of the City Engineer or their designee.
14. Permittee should backfill pavement excavations and excavations adjacent to multimodal transportation facilities when work is not actively occurring. If excavations cannot be backfilled, permittee shall notify the Engineering Department when steel plates are to be used within the Right-of-Way. The permittee is responsible for providing the specification and placement of steel plates to Engineering staff for approval prior to placement.
