

Goal #1

Research the feasibility of creating local collection options of TetraPak or similar layered cartons:

- Terra Cycle =
https://www.terracycle.com/en-US/about-terracycle/drop_off_locations#@39.1699357:-86.5367227zoom:10
- Tetrapak -> The carton Council
<https://www.recyclecartons.com/what-to-do-when-your-city-doesnt-recycle-cartons/>
- Action Items:
 - Draft email to send to sanitation department asking about options
 - Emma:
 - sanitation@bloomington.in.gov.
 - Who is the city contracted with for recycling processing?
 - Contact info?
 - Include PDF
 - <https://www.cartonopportunities.org/sites/default/files/pfd-files/communities.pdf>
 - Matt:
 - Contact the carton council
 - Find details of coordination process
- Conditional next steps:
 - Promote Petition
 - Contact the city's contracted recycling processor to see if they already recycle cartons at another location/ get more information.

Goal #2

District Compost Drop Off Promotion

- A thousand households who mulch: people who forego leave vacuum pick up
- Earth Keeper's: processor and hauler
- MoCo Waste District: state mandated, required to provide services, operate recycling drop offs, subscription based
- [JW reach out to district and propose entry signs
 - Create updated flyer
 - Create marketing tools that educate public on the drop off process
- Next Step goal -
 - Partner with city:
 - social media
 - Zero in bloomington focus

Goal #3

Put together a multiple page plan for a Neighborhood Compost project to promote the diversion of food waste to neighborhood composts.

Do together

- 1k HWM mailing list [Devta]
- Other lists?
- Neighborhood Associations
- Contact

Planning

Oct - action items completed; discuss results.

Nov - majority of concepts flushed out

Dec - Finalizing content
